STEEL PLOWS

Manufactured by the

OLIVER BROS.
Plow Works.

These, through good service and effective work on SUGAR and RICE PLANTATIONS, and elsewhere, have made for themselves, a good reputation.

Reports from our customers show perfect satisfaction given in scouring, light draft and in every respect. We now present to the public a full line, as follows:

The C. & C. Rice Plow.

SIZES: 5 to 10 inches.

Made for light cultivating and all ordinary use and by a systematic system of bracing, these plows are both light and strong.

The Queen.

SIZES: 6, 8 and 10 inches. For heavier work.

The Monarch.

SIZES: 12 and 14 inches. For breaking and heavy plowing.

FUNERAL ARRANGEMENTS

TOMORROW A SAD DUTY IS TO BE PERFORMED.

The Remains of the Late British Commissioner Will Be Laid to Rest in Nuuanu Cemetery.

The remains of the late British Commissioner Hawes will be laid at rest tomorrow morning in the English Government plot in Nuuanu Cemetery.

The funeral services will be held in St. Andrews' Cathedral at 10 o'clock. Rev. John Osborne, vice dean of the cathedral, assisted by Rev. Alex Mackintosh, will conduct the services. Both the surpliced and Second Congregation choirs will sing.

The pall bearers will be Sir Robert Herron, Robert Cotton, J. O. Carter, Clive Davies, George Harris, Dr. Geo. Herbert, W. H. Baird and T. May.

A detachment of Mounted Patrolmen and foot police will lead the funeral procession. The Hawaiian and Philadelphia bands will follow. Marines from the British ship Penguin, Japanese cruisers Naniwa and Hiyae, and the American vessels Philadelphia and Marion and the National Guard will participate in the funeral march.

The Hawaiian Patriotic Society and Aloha Aina will attend the services in a body.

All Government offices will be closed tomorrow. It is likely that business generally will be suspended from 10 o'clock until noon.

RISE IN FLOUR.

Flour has taken a jump of 25 cents a barrel. The shortage in South American crops is the cause.

SWARMED WITH PEOPLE.

There were fully 600 people at Makae Island yesterday afternoon to hear the band concert. The members of Company A, in camp on the island, made it pleasant for those who called at Camp Fisher. There will be no more Sunday concerts until next month.

VICTORY FOR MILITARY LADS.

By a score of 10 to 7 the boys from the barracks defeated the Stars at base ball on Saturday afternoon.

Luahiva, left fielder for the Regiment team, played in bad form and was substituted in the seventh inning by "Ginger" Mayne.

Captain Wilder of the Stars knocked the ball to the left field fence and made a home run. Lionel Hart did excellent work in the box.

AN ACCIDENT.

Professor Mead and party, who returned yesterday on the Claudine from a tour of the big island, had an exciting experience in trying to descend into Haleakala last week. One of the gentlemen in the party stumbled and fell between two rocks, where he became wedged and was found two hours later nearly overcome from exposure.

ON THE KLONDYKE.

Cost of Living and Chances of Money Making.

B. R. Shaw writes from the gold camp to a Seattle friend as follows: "You would not believe me when I tell you that I went into one cabin and counted five five-gallon oil cans full of gold dust, but it is a fact. It is the result of the work of two men during the winter, and the dump is not much more than half worked out."

"There has been about \$2,000,000 in dust taken out so far in the district. At a low estimate there will be \$50,000,000 taken out during the next year."

"Some of the saloons take in \$2000 to \$3000 a day. All pay in gold dust and nothing less than 50 cents. A glass of beer costs 50 cents, so I don't drink many. There are plenty of provisions here. Flour is \$12 per 100 pounds; sugar 35 cents per pound; oatmeal, 25 cents; bacon, 50 cents, and other things in proportion. Charles Kimball is doing very well, taking in from \$3000 to \$5000 a day."

"Logs are worth \$30 at the mill and lumber \$150 a thousand. There is a small sawmill here running day and night and cannot cut half the lumber wanted."

Fine Repair Work.

When your Bicycle, Gun, Typewriter or any article of fine mechanism needs repairing and you wish a job which is certain to prove satisfactory, bring it to us and we will fix it for you and guarantee it fully.

We take pride in turning out only the very best of work and will call for and deliver it to any part of the city.

CHINESE RIOT ON HAWAII

FIELD HANDS WOUNDED BY THE POLICE.

Five Hundred Celestials at Laupahoehoe Repelled by Five Determined Policemen—Luna's Rash Act.

Marshal Brown received particulars in the Claudine mail of a serious riot on Laupahoehoe plantation last Tuesday which resulted in a Chinese being shot through the cheek by a policeman. Over 500 Chinese were concerned in the riot. They attacked the plantation officers and were only finally repulsed by the police, led by Deputy Marshal Swain, by the use of firearms.

The trouble was occasioned by a luna knocking down a Chinese field hand last Tuesday. The Chinese were either too badly injured to get up or was shamming, for it was necessary to carry him into the office for treatment. The Chinese became very excited over the matter, and several hundred of them left the field and assembled in front of the office, clamoring for the possession of the injured man. Deputy Sheriff Swain was telegraphed for and soon arrived with a posse of four men. The police drove the Chinese back without the use of arms at first.

The Chinese then armed themselves with clubs and tools and made a rush for the office. They must have overcome the police had not Swain ordered his men to fire. There were some answering shots from the crowd, but the Chinese, seeing that the police were determined, finally fell back and retired from the field. Over 500 of them declared their intention to leave the plantation. They were up all night rioting, but started before daybreak next morning for Hilo. Later on they were persuaded to return to work on the plantation, but at last accounts were still ugly and defiant.

Neither the man struck by the luna nor the one shot in the cheek in the riot were badly injured. They were cared for in the plantation hospital.

HEAVY RAINFALL.

Captain Cameron of the Claudine reports that considerable rain fell on the upper end of Maui last week, bringing much needed relief. A heavy rain was falling at Laupahoehoe last Friday while the Claudine was lying there. Capt. Cameron believes that it extended far back into the interior, but he was unable to secure accurate information, as he could not get the telephone connection with interior points. Captain Weir of the Kilauea Hou says that the rain extended as far down the coast as Kilauea, heavy showers falling there last Saturday. The indications are that the back of the drought has been broken.

WILL SAIL NEXT SUNDAY.

The Goptic is due from Yokohama on Sunday. She will probably arrive a day ahead of time. The passengers who will join her at this port are: Rudolph Spreckels, Dr. Crosser and wife, Mr. Reeves, Mr. Leonard, Mrs. Barbour, W. T. Barbour, Mr. and Mrs. H. Wallis and Charles F. Wall.

TURNER CLAIMS THE RECORD.

Edward H. Turner, who styles himself "the Hilo Surprise," writes the Star that he holds the bicycle record for the volcano road, having covered the ground from Peter Lee's place to Hilo in one hour and forty-five minutes on a 63-inch gear bicycle. Turner admits that he made the same trip in two hours flat when Sylvia made his try, but he was back of a herd of cattle for some time, he claims. Turner once lived in Honolulu.

BOTH ARE LOYAL.

It would appear from the tone of the following leading editorial in last week's issue of the Kona Echo that the American and Japanese editors of that publication have been talking politics.

"As we announced already that the Kona Echo is not included among political papers, and if our chief editor ever expressed any idea on the annexation or any other political subjects that must be the opinions of himself. The readers please do not expect to see any political opinions from our paper. This is merely an instructive journal. As our American editor is true to his country, our Japanese editor must be more loyal to his own country."

It is always gratifying to receive testimonials for Chamberlain's Colic, Cholera, and Diarrhoea Remedy, and when the endorsement is from a physician it is especially so. "There is no more satisfactory or effective remedy than Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes Dr. R. E. Robey, physician and pharmacist, of Olney, Mo., and as he has used the Remedy in his own family and sold it in his drug store for six years, he should certainly know. For sale by all druggists and dealers. Benson, Smith & Co., wholesale agents for the Hawaiian Islands.

TO LET.

To be let with the fixtures, therein the portion of the Waverley Block on Bethel street now occupied by Ehlers & Co.

Apply to HENRY WATERHOUSE.

THEIR LIVES AT STAKE

MOLOKAI MURDERERS BEFORE THE CIRCUIT COURT.

Difficult to Get a Jury—Antone Rosa and Arthur Wilder Selected by the Court to Defend Them.

The attention of the Circuit Court will be taken up for the next three or four days in the hearing of the Molokai murder cases.

Noah, a native about 40 years of age, Sam Ku and Paahao, native lads about 20 years old, are the defendants. Judge Carter, before whom the cases are being tried, appointed Antone Rosa and Arthur Wilder to defend the Hawaiians.

The prosecution is being conducted by Attorney General Smith, Deputy Attorney General Dole and A. G. M. Robertson.

The entire morning was occupied in securing a jury. Up to 2 o'clock this had not been accomplished.

Noah, Sam Ku and Paahao are accused of having broken into the store of Ah San, alias Asena, at Kamalo, Molokai, on the night of April 11th, with the intention of burglarizing the place.

They were resisted by Ah San, whom they pounced upon and beat with clubs and afterward stoned to death. After choking Ah San's wife, the murderers rifled the store of its valuables.

The men were captured after a hard chase. One of the boys represented to the officers that he would restore a good share of the stolen goods if they would take him to a certain valley. Upon reaching the selected place the native jumped down the cliff and made good his escape. He was captured some days afterward.

AMUSEMENTS.

Farewell Week of the Famous Katie Putnam.

Katie Putnam appeared before a large audience on Saturday night. The play was "The Old Line Kila," written for Miss Putnam by C. T. Dazey. It is an interesting drama, one that gives the company many opportunities for good work. The play was admirably staged and well acted throughout. Miss Putnam had a congenial part and won many new admirers by her cleverness. The little lady introduced two songs, which pleased the audience greatly.

The present week will be the last of the engagement. The repertoire will be: Tuesday night, "Love Finds a Way." Thursday, "Dad's Girl." Saturday night, "The Old Curiosity Shop." The play for the matinee will be announced later in the week.

Seats for the above performances are now on sale at Wall, Nichols Co.

HONOLULU MAN'S ENTERPRISE.

Captain Smythe of Honolulu is in Kona preparing a plantation for coffee. The location is excellent, being just a little north of the Hawaiian Coffee and Tea Company's plantation. Captain Smythe will build a large residence on his plantation shortly.

LUHAIA ROAD FINISHED.

C. H. Dickey, Tax Collector at Wailuku, came down on the Claudine yesterday. He reports that the new Government road between Lahaina and Wailuku is fast nearing completion. It was opened sufficiently last week to enable Mr. Dickey to get through with a brake.

PUMPING PLANTS.

A Few Notes Upon Ewa and Oahu Plantations.

One of the new 10,000,000 gallon pumps recently received at Ewa plantation is already in place and Manager Lowry expects to have it in running order by next Monday. The other new pump, of equal capacity, will be running in about five weeks. The new pumping stations will increase the supply from 34,000,000 to 54,000,000 gallons of water every twenty-four hours, which will insure a constant flow of water in the irrigating ditches the year round, not only on the ground already under cultivation, but on the new tracts about to be opened next year. The water supply at Ewa has hitherto been dangerously small. It has been necessary to keep the pumps going night and day, even seven days in the week, pumping into the reservoirs during the night and on Sunday.

The Oahu plantation pumps are somewhere on the road between Chicago and San Francisco, but will not doubt be on the ground within a few weeks. Planting will not be commenced until they are in place, and ready to give a steady water supply. The new, steam pumps have been set up at Pearl City and will be ready for work in a few days. A large area of land is all ready for planting. A force of men is now at work laying the branch track from the railroad up through the plantation.

SEWING MACHINES.

L. B. Kerr is agent for the Hawaiian Islands for both the "Domestic" and "Wheeler & Wilson" sewing machines. In both lock and chain stitch these machines are the best in the world.

ARTESIAN WELLS ON MAUI

PLANTATIONS WILL DEFY THE DROUGHTS IN FUTURE.

Good Rains at Haiku—Grand Concert—A Pleasant Dance—Fires on the Kula Lands—No Damage Done.

Maui, August 7.

A beautiful rain fell last night and continues this morning, doing world's of good to the country. Roads are slushy and muddy and cisterns are greatly replenished throughout Makawao, although, as usual, Kula is not in it. Plantations are not suffering much at present, but three of them are pushing their pumping plants forward as fast as possible, so as never to suffer. Paia plantation people are digging their well, and at 25 feet have struck a good supply of water, but intend to go much deeper.

Spreckelsville people have bored a well on their lands up towards Kula and have a supply of about 4500 gallons to the minute. This well will enable them to utilize between 4000 and 5000 acres of land that heretofore have been idle.

The Haiku Sugar Company expect the rest of their pumping plant in a week or so, when it will be immediately put up.

On Friday evening, the 13th inst., a grand concert, under the auspices of the Makawao Ladies' Aid Society, will be given in the Foreign Church at Paia. Those who will take part in the program are Professor Maurice C. Beckwith, Professor A. B. Ingalls, and Mrs. C. B. Damon of Honolulu, Mr. and Mrs. Van Buren of the Yale Glee Club, Mrs. Wm. Higby, and others of local fame. General admission will be \$1; children 50 cents, and Hawaiians 50 cents. The proceeds are to be devoted to charity, and it is hoped everybody will turn out, as a good program will be presented.

The following visitors arrived on the Claudine on Wednesday and went to Kawaapae resort: Professor and Mrs. George Meade and Miss M. Campbell of Chicago; Mrs. C. Burgoyne of England, Messrs. Smith of Boston, W. D. Wilcox of Washington, D. C., F. N. Castle of Honolulu. Most of the party visited the crater on Thursday and return to Honolulu tonight. Messrs. W. D. Wilcox and Clarence Smith remain over and accompany the Baldwin boys on a camping trip in the crater next week.

Mr. and Mrs. J. H. Nishwitz, Misses Eva and Nellie Smith, and Mr. C. W. Baldwin returned home from the Summer School.

Last evening Miss R. E. Crook gave a delightful dancing party at their Makawao home. The parlor, which was cleared for dancing, was prettily decorated with greens and flowers, and the veranda hung with Japanese lanterns. A goodly number of young people were present and dancing to the music of the piano was kept up till after midnight. Refreshments were served and a good time had generally.

Mr. and Mrs. J. S. Walker and Mr. and Mrs. Porter Boyd spent the greater part of the week at Olinda. On Wednesday after last Mrs. B. D. Baldwin of Hanaleiupoko held a high tea in honor of Miss Rita Schmidt of Honolulu. About two dozen of Makawao's ladies and visitors were present and a very enjoyable time was had.

Two brilliant pasture fires have lighted up the night here the past week. One on the Spreckelsville uplands on Sunday night, and the other at Makawao on Wednesday night, burning off about 300 acres. No damage done beyond some fencing being burned.

M. F. Lyons has resigned his position in Kahului store.

Polo at Makawao this afternoon.

Mr. George Waterhouse is expected next week to visit the crater.

Miss Florence Albright and Miss Anna Forbes return to Honolulu tonight, after about a month's visit on Maui.

Miss Lucy and Messrs. Fred and David Hayselden come from Lahaina today to visit at Glenside, Mr. D. D. Baldwin's.

Professor and Mrs. A. B. Ingalls arrived per Mauna Loa last night and are the guests of D. C. Lindsay at Paia.

Mr. W. E. Shaw has gone to Hana for a week's vacation and incidentally to look into coffee lands.

KOHALA ITEMS.

The long drought in Kohala has at last been broken. An inch of rain fell Wednesday night, Thursday a good shower, and again on Friday.

All the teachers who attended the Summer School in Honolulu have returned excepting Miss Ostrom and Miss Ward. They stopped off at Lahaina to visit the Rosenberns.

Mr. and Mrs. Fraser have gone to the States for a three month's visit.

"DOMESTIC."

There is no necessity to add the words sewing machine in speaking of the "Domestic." Every housekeeper knows that the "Domestic" is what L. B. Kerr claims it to be—the best in the world.

COLIMA COFFEE SECURED

FAMOUS BERRY TO BE PLANTED ON OAHU.

Makaha Coffee Company Succeeds in Smuggling a Bag Out of Mexico—A Model Plantation.

The Makaha Coffee Company will put in seventy-five acres of the famous Colima coffee this fall, from which it is expected that coffee equal to that which has made the Mexican berry so valuable in the markets of the world can be raised. At a comparatively enormous expense and under the greatest difficulties 100 pounds of seed berries were recently secured.

The planters of the Colima district in Mexico have had a monopoly of the famous coffee for years, forbidding, under heavy penalties, the export of the seed berry from the district. The Colima coffee is highly valued, because of the high percentage of pea berry found in it.

Through a friend in the district, the promoters of the Makaha Company succeeded in smuggling out of the country 100 pounds of seed, which arrived here on the last steamer from the Coast. Half of the bag was sold here at the rate of \$1.25 per pound, and the remaining fifty pounds W. H. Hoogs, president of the company, took down to the plantation last Saturday.

The Makaha plantation, the largest on the island, has already 125 acres of sixteen months' old trees in the ground. Many have received a set back through the inroads of the grub, but that annoying insect has been exterminated, strangely enough through the use of printer's ink, and all of the trees are now healthy. The plantation is now under the superintendence of A. C. Vestal, a young California fruit grower, who thoroughly understands how to deal with insect pests. He is now experimenting with the Japanese beetle, and thinks he has hit upon a method of exterminating it with gypsum.

The site of the Makaha plantation is an ideal one. It is situated at the head of the valley, at an elevation of from 1300 to 1800 feet, surrounded on three sides by high cliffs, so that the trees are perfectly sheltered from the wind.

The Makaha plantation now has growing seventy-five acres of the Waianae coffee and fifty acres of the best Guatemala.

POSTPONED.

Social Functions Put Off on Account of Commissioner Hawes' Death.

The death of British Commissioner Hawes has caused a postponement of social festivities for the week.

The Cricket Club smoker will not be given until next Wednesday.

The base ball match between the naval men and business men, scheduled for this afternoon, has been postponed for one week.

Mrs. Harold M. Sewall's bathing party for this evening has been held off until Wednesday evening.

Dr. and Mrs. Wood's picnic party to be given at Waikiki tomorrow has been held off until later in the week.

The reception and dance to be given on board the Philadelphia by Admiral and Mrs. Beardslee tomorrow afternoon, has been postponed.

The boating party and hop arranged by the officers of the flagship for Thursday evening will probably not be given this month. It is customary in the navy for officers to refrain from attending any social function for a short period after burial. It will be impossible to give the dance next week, as Admiral Miller will arrive to relieve Admiral Beardslee.

"WHEELER & WILSON."

The name "Wheeler & Wilson" is a household word and the machine a necessity. It is the same as everything else handled by L. B. Kerr. The best to be had.

Awarded Highest Honors—World's Fair, Gold Medal—Midwinter Fair.
